## IT SUPPORT | NETWORKING | TECHNICAL OPERATIONS

Tooele, Utah | [stevegarnet@outlook.com](mailto:stevegarnet@outlook.com) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

### PROFESSIONAL SUMMARY

Entry-level IT support candidate with hands-on experience in Windows and Ubuntu Linux, computer hardware, networking, virtualization, troubleshooting, and technical documentation. Brings more than 20 years of manufacturing and operations experience, including team leadership, equipment troubleshooting, training, controlled procedures, and continuous improvement.

### TECHNICAL SKILLS

**Systems:** Windows 10/11, Ubuntu Server, Linux command line, VirtualBox, systemd, OpenSSH, UFW, Samba

**Networking:** TCP/IP, IPv4, DNS, DHCP, NAT, subnetting, routing fundamentals, Wi-Fi, ping, ipconfig, tracert, nslookup

**Hardware:** PC assembly, RAM and storage replacement, BIOS/UEFI, bootable media, peripherals, Cat5e/Cat6 termination and testing

**Tools and Methods:** Git, GitHub, Bash, Python fundamentals, PowerShell fundamentals, runbooks, PDCA, root-cause analysis

### TECHNICAL PROJECTS

**LeanOps Lab** | Self-Directed | Tooele, Utah

2026

- Built an Ubuntu Server lab with NAT and isolated host-only networking, static IPv4 addressing, key-based SSH, and source-restricted firewall rules.
- Created Bash and Python health-monitoring workflows with systemd scheduling, durable event state, evidence collection, log retention, and grouped email notifications.
- Implemented role-based Samba shares, protected configuration backups, daily share-data backups, isolated restore tests, operational runbooks, and sanitized public evidence across 13 closed PDCA cycles.

**IT Support Portfolio** | Self-Directed | Tooele, Utah

2025 to Present

- Created and published networking study tools, an interactive OSI reference, and documented troubleshooting case studies using HTML, CSS, JavaScript, React, Git, and GitHub Pages.
- Recovered communication with a 3D-printer MCU by isolating the Linux host, USB serial interface, firmware, and controller layers; documented the failed attempts, recovery, and verification.

### PROFESSIONAL EXPERIENCE

**Team Lead** | US Synthetic | Orem, Utah

2017 to 2025

- Led 8 to 12 employees in precision manufacturing, coordinating priorities, training, quality, safety, documentation, and shift handoffs.
- Diagnosed equipment and process failures, documented findings, and coordinated corrective action with operators, maintenance, and leadership.
- Trained and certified employees using the EDGE method while reinforcing standardized work, 5S, PPE, and quality requirements.

**Sanitation Manager** | SupraNaturals

2010 to 2017

- Managed industrial sanitation work, employee assignments, safety procedures, documentation, and production-area readiness.

**Line Lead** | Campbell Soup Company Ltd.

2003 to 2010

- Led food-production work involving batching, production and packaging equipment, HMI controls, inventory systems, traceability, quality checks, and production reporting.

### EDUCATION AND DEVELOPMENT

**High School Diploma** | CompTIA Network+ preparation through coursework and hands-on labs, in progress
